

We are friends

Have you met the doctor of my heart?
He made it restart
He's the benefactor of my soul
He makes me whole

Choir:

We are friends
and he shows me a love so tender, yet intense
It was love that made him die on a cross
He gave up everything for us

Have you met my teacher?
Wisdom flows wherever he goes
Once he was a preacher
He told what's required before he retired

Choir:

We are friends
and he shows me a love so tender, yet intense
It was love that made him die on a cross
He gave up everything for us

Have you met the master of my house?
It's not my spouse!
Let's approach him faster
When you meet, he'll wash your feet

Choir:

We are friends
and he shows me a love so tender, yet intense
It was love that made him die on a cross
He gave up everything for us
