

High Above

Before a word was on my lips
You knew my mind's full intention
Before a thought came to my mind
You could read it completely, from afar

I took the wings of the red morning sun
But you found me, at the end of the ocean
I tried to hide in the darkest night
But darkness turned to light, you shone all around me

Chorus

High above the clouds
Where skies are blue
My soul, my mind, my spirit will be home
High above the clouds
I'll be with you
My soul, my mind, my spirit will be home
With you, always...

When I was high, when I was low
You were there, you could reach me
When I was made, in the secret place
I was hidden from all, but from your eyes
All the days you ordained for me
Were set down, long before, they came to be
Search my ways Lord, and guard my heart
Lead me in your way, the way everlasting

What can I do, what can I say
It's too wonderful to me
You brought me in, you knew my ways
Laid your hand all upon me, made me safe
All the days you ordained for me
Where set down long before, they came to be
Search my ways Lord and guard my heart
Lead me in your way, the way everlasting
